REMOTE MANAGEMENT

DDA COMPLIANT

VANDAL RESISTANT

INTRATONE

WE PUT THE POWER IN YOUR HANDS

With over 10 years of industry experience, Intratone is Europe's leading wireless door entry system provider. With our pioneering access solutions, you can easily manage multiple properties remotely and in real-time, with no cabling, maintenance or mechanical keys.

When it comes to property access, we know that security is your priority. That's why we've developed wireless door entry systems that put you and your residents back in control.

Allowing ease of access while preventing any unwanted visitors from entering, all our systems are simple to use and accessible – meaning that you can save both time and money, while being safe in the knowledge that your property is secure.

PEACE OF MIND

Smart access control that keeps your buildings safe and secure for you and your tenants

NO WIRES NO HASSLE

Wireless and handset-free, our access systems are cost-efficient and can be installed in any building

REMOTE MANAGEMENT

Our secure online platform gives you an overview of every active key in the building, and alerts you when something is amiss

FAST INSTALLATION

Quick and easy to set up anywhere, our systems are typically up and running in just half a day, and with a single technician

MUCH MORE THAN JUST DOOR ENTRY SYSTEMS, OUR INNOVATIVE TECHNOLOGY OFFERS

MINIMAL MAINTENANCE

With our MIFARE system, there's no need to replace existing key fobs. Plus, as there are no cables or handsets, maintenance costs are a distant memory

A ROBUST SOLUTION

Flush-fit and streamlined, our intercoms are protected against both accidental damage and vandalism

ACCESSIBILITY FOR ALL

Our wireless systems work with the simple push of a button, plus we offer DDA-compliant solutions

TAKE BACK CONTROL OF YOUR PROPERTY SECURITY AND TIME DISCOVER INTRATONE'S RANGE OF ACCESS CONTROL SOLUTIONS TODAY
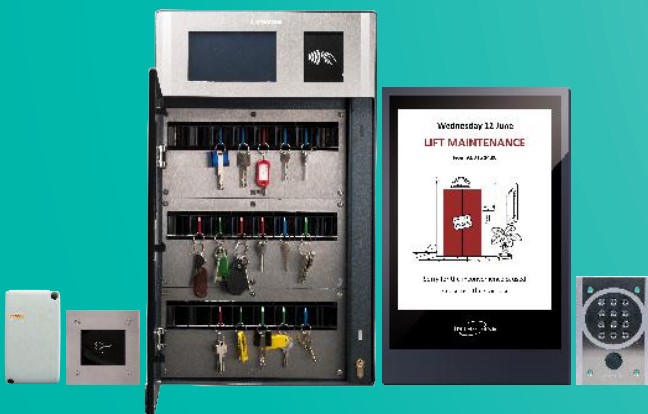

INTERCOMS

Easily control building access for tenants and service providers with our state-of-the-art intercoms:

- Smart, innovative technology
- Wireless and handset-free
- DDA compliant
- Vandal-resistant

INTRATONE'S ALL-IN-ONE PROPERTY ACCESS SOLUTION

SUPPORTING TECHNOLOGY

Boost your wireless door entry system with our supplementary property management technology, including:

- Key safes
- Digital noticeboards
- Integrated RF receivers
- Proximity readers

REMOTE MANAGEMENT

Our secure online platform allows you to control property access from the comfort of your office:

- Real-time building overview
- Automatic alerts if a copied key fob is used
- Let service providers in remotely
- Modify or delete tenant badges quickly and easily
- Share management rights with your team

HOW DO OUR SMART ACCESS SOLUTIONS WORK?
IT'S AS EASY AS 1,2,3...

RECEIVE A CALL
1

A visitor to the building requests entry via intercom, and the phone rings

ANSWER
2

Access the intercom's audio system or video camera by answering the phone

OPEN THE DOOR
3

Press 'Open' on the phone app to grant access to the visitor
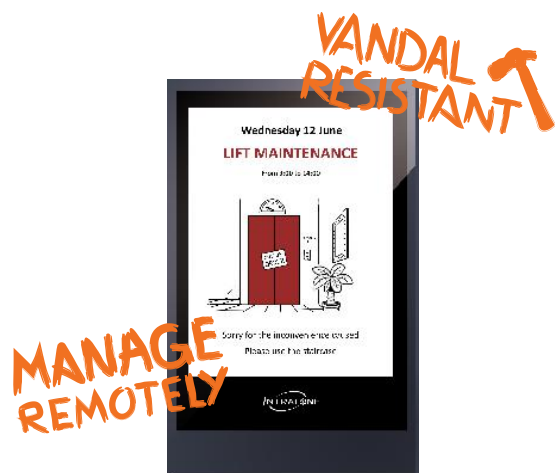

WE'RE ALWAYS ON HAND TO HELP

With both a dedicated account manager and technical support staff on hand, all your training, repair and purchasing needs are taken care of quickly and easily.

SUPPORTING TECHNOLOGY

Notice boards

Display important messages and status updates to residents on our secure digital noticeboards, either in communal areas or outside. Save time and money by keeping tenants informed in real-time, simply with a click on our online management platform.

Key safes

Store your property's keys securely in our range of reliable key safes. Easy to set up and install, our key safes can hold over 500 keys. And, as with all our systems, access to the safe can be managed remotely via our secure online platform.

STAND ALONE ACCESS CONTROL

RF receivers

Control car park access remotely and in real-time with our range of RF receivers. Our smart mobile technology allows you to quickly delete, modify or create new mobile keys without the need to retrieve them first.

- Vandal-resistant
- Accessible for all

Proximity readers

Replace your mechanical lock cylinder with our vandal-proof square proximity reader. Control building access remotely online, including programming, deleting and modifying MIFARE fobs in real-time, or create time-stamped events and set alerts for unauthorised key usage.

- Vandal-resistant
- Accessible for all

ABOUT INTRATONE

At Intratone, we believe that access control equipment should be accessible and user-friendly for everyone, whether you're managing the property or living in it. By turning a mobile phone into a powerful building access tool, taking control of security, building costs and your time has never been so easy.
